All Content on district Chromebooks is filtered by a cloud-filtering provider called GoGuardian. This means that adult content, violent content, violent games, gun related topics and social media is blocked. The filtering helps us ensure students are safe while using district devices
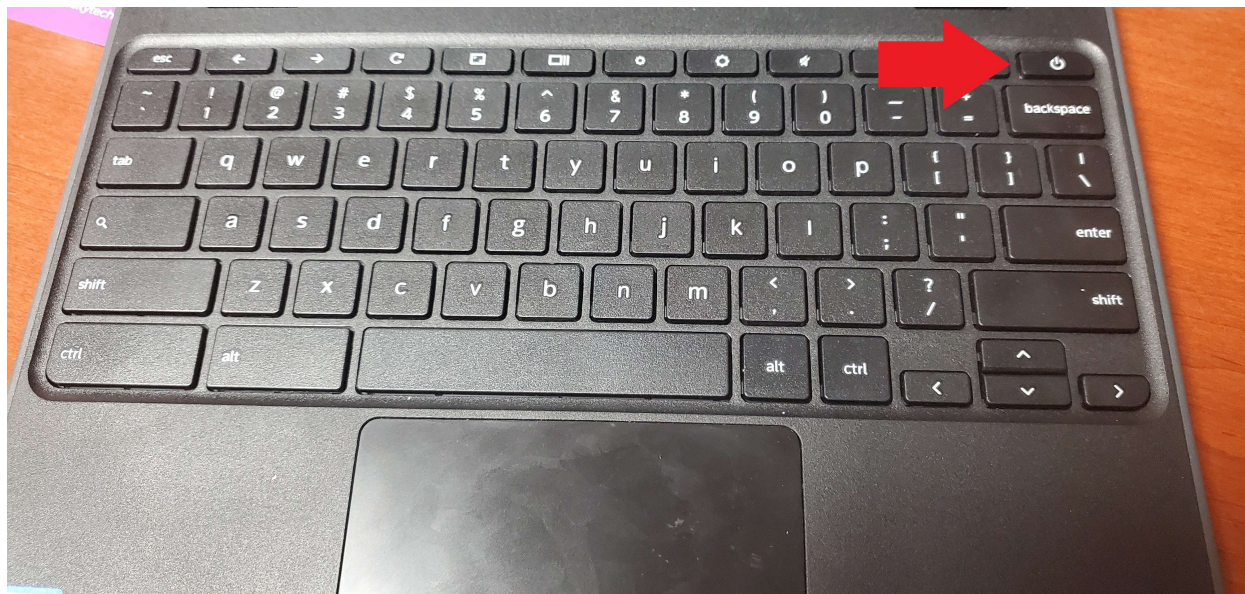

<u>Student Email Addresses</u>

Student email address are composed of the <u>first three letters of the student's first name</u>, <u>the first four letters of the student's last name</u>, <u>the last two number of the student's high school graduating year and followed by @students.meridian223.org</u>.
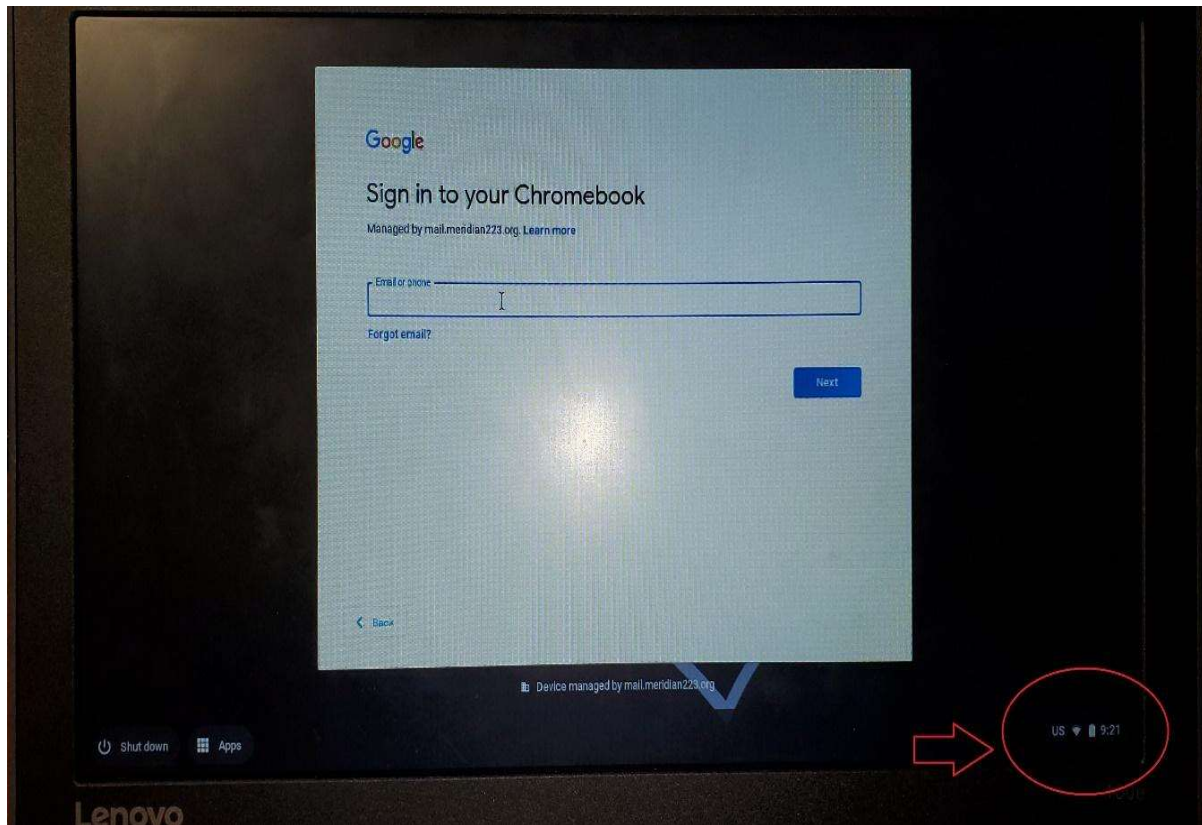

An example email address for a student name <u>John Apple</u> who graduate high school in <u>2028</u> would be **johappl28@students.meridian223.org**.

**Step 1.** Power on Chromebook

Step 2: Click on wireless connection setting options (bottom right on the screen)

Step 3: Click on the small drop down arrow under the Wi-Fi signal indicator (If you accidentally click on the Wi-Fi signal indication, you will turn off your Wi-Fi. To turn it back on, click on the Wi-Fi signal indicator a second time.)
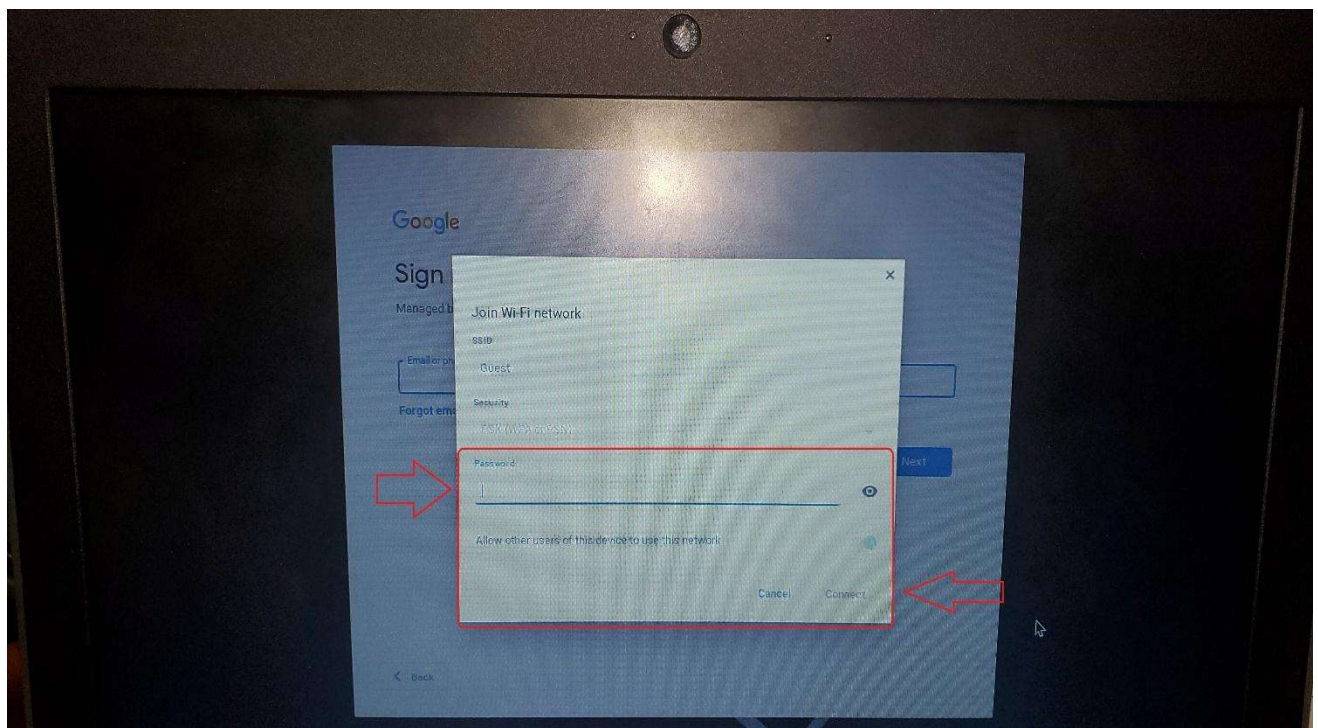

Step 4: Select your home Wi-Fi (it may take a few seconds for your home Wi-Fi to show up)

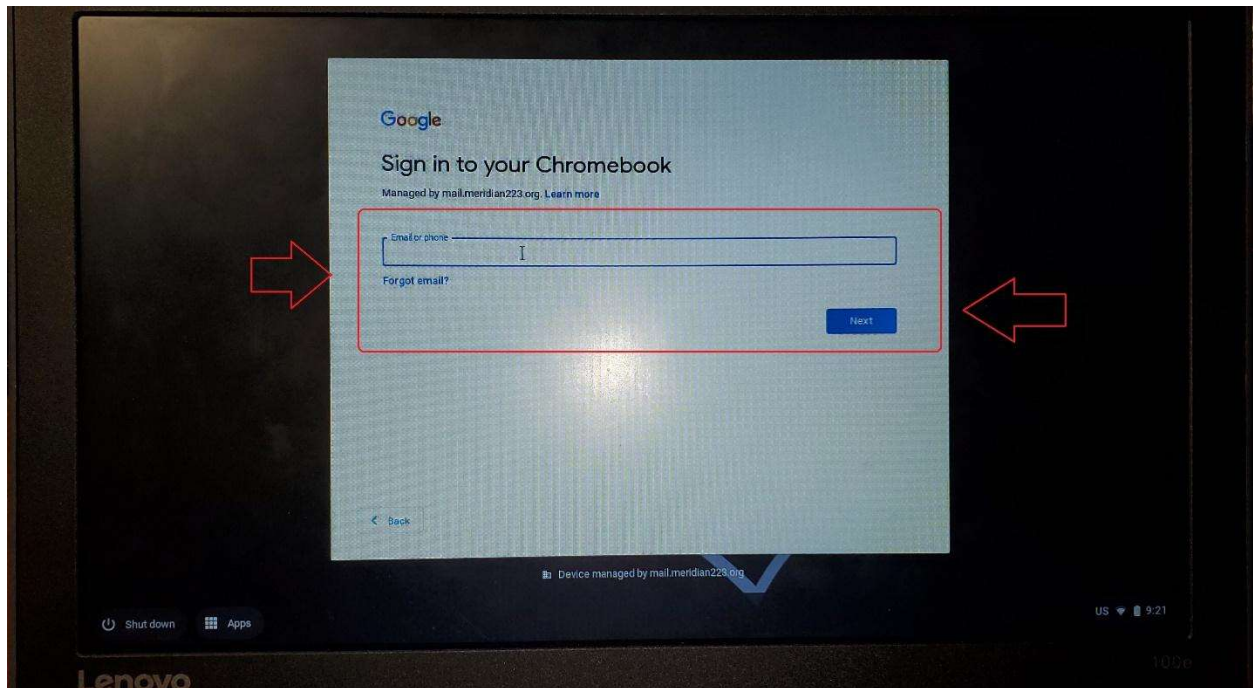

Step 5: Enter your home Wi-Fi password and click "Connect" (If it fails, please verify that the password has been entered correctly. Here a video tutorial showing how to get to the Wi-Fi selection screen: https://www.youtube.com/watch?v=O0A-5Ki4TAc)
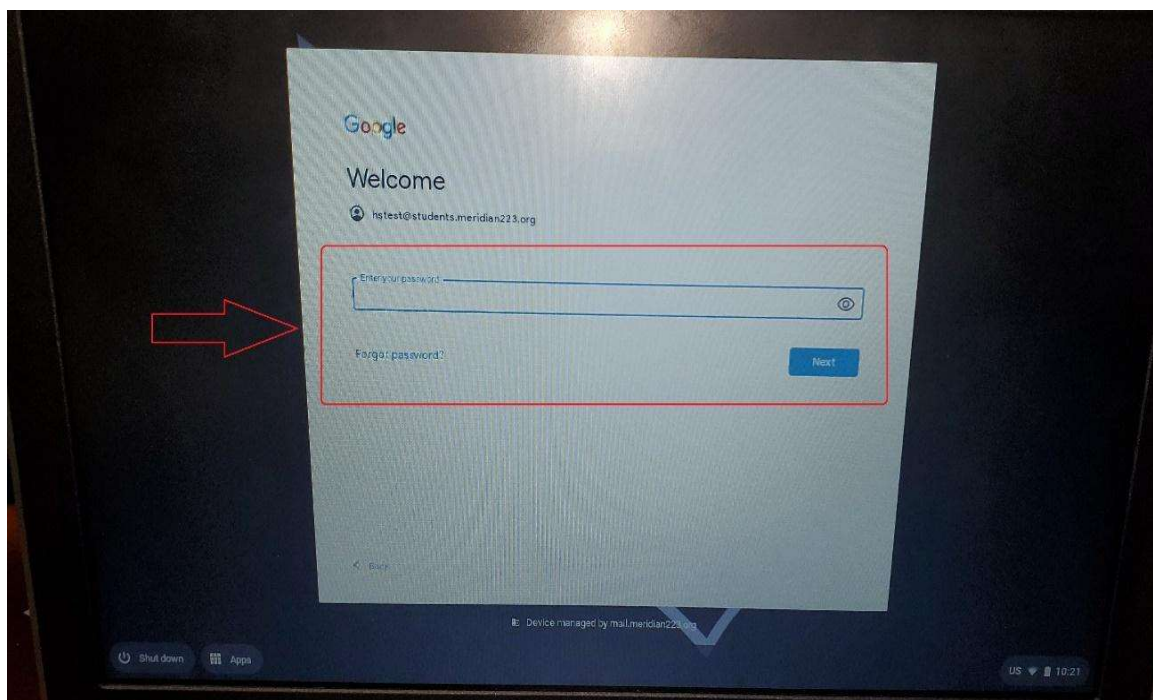

Step 6: Once connected to your home Wi-Fi, you will return to the login screen. At the login screen enter your full student email address and click "Next"

Step 7: Enter student password and click "Next"
