Independent Auditor's Report

Board of Education Meridian Community Unit School District No. 223 Ogle County, Illinois

Report on the Financial Statements

We have audited the accompanying financial statements of Meridian Community Unit School District No. 223, as of and for the fiscal year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting practices prescribed or permitted by the Illinois State Board of Education. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described more fully in Note 1, the financial statements are prepared by Meridian Community Unit School District No. 223 with the financial reporting practices prescribed or permitted by the Illinois State Board of Education, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to comply with the requirements of the Illinois State Board of Education. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to in the first paragraph do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Meridian Community Unit School District No. 223, as of June 30, 2018, or the changes in its financial position for the year then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to in the first paragraph present fairly, in all material respects, the assets and liabilities arising from cash transactions of Meridian Community Unit School District No. 223 as of June 30, 2018, and the revenues it received and expenditures it paid, and budgetary results for the year then ended, in accordance with the financial reporting provisions of the Illinois State Board of Education as described in Note 1.

Other Matters

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Meridian Community Unit School District No. 223's financial statements. The information listed in the table of contents as "Other Information", which is the responsibility of management, is presented for the purpose of additional analysis and is not a required part of the financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

BR-1 2

Supplemental Information

Our audit was conducted for the purpose of forming opinions on the financial statements taken as a whole. The schedules listed in the table of contents as "Supplemental Information" are presented for the purposes of additional analysis and are not a required part of the financial statements of Meridian Community Unit School District No. 223. Such information is the responsibility of management and has been derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements taken as a whole on the basis of accounting as described in Note 1.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 15, 2018, on our consideration of Meridian Community Unit School District No. 223's internal control over financial reporting and our tests of its compliance with certain provision of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of testing of our internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Meridian Community Unit School District No. 223's internal control over financial reporting and compliance.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Board of Education Meridian Community Unit School District No. 223 Ogle County, Illinois

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of Meridian Community Unit School District No. 223 as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise Meridian Community Unit School District No. 223's financial statements, and have issued our report thereon dated October 15, 2018. Our opinion was adverse because the financial statements are not prepared in accordance with generally accepted accounting principles. However, the financial statements were found to be fairly stated, on the cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles, in accordance with regulatory reporting requirements established by the Illinois State Board of Education.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Meridian Community Unit School District No. 223's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did identify certain deficiencies in internal control, described below, that we consider to be material weaknesses.

Financial Reporting & Material Adjustments

The District lacks adequate procedures over financial reporting related to reconciling balance sheet accounts, particularly payroll liability accounts, and identifying and recording necessary adjustments throughout the year and during the year end reporting process, which in turn required several material adjusting journal entries. These adjustments, including an adjustment to fund balance, were required to properly report the District's financial activity and reconcile balances to prior year audited financial statements.

Management's response:

Management will record all journal entries provided by the auditors and refrain from posting any adjustments directly to fund balance, as well as periodically review and reconcile payroll liability accounts and other general ledger accounts to identify possible misclassifications and proper recording of transactions.

We also noted certain other matters involving the internal control over financial reporting that we reported to management of Meridian Community Unit School District No. 223 in a separate letter dated October 15, 2018.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Meridian Community Unit School District No. 223's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance that we reported to management of Meridian Community Unit School District No. 223 in a separate letter dated October 15, 2018.

District's Response to Findings

Meridian Community Unit School District No. 223's response to the findings identified in our audit is described previously. Meridian Community Unit School District No. 223's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suited for any other purpose.

Notes to Financial Statements

June 30, 2018

(1) Summary of Significant Accounting Policies

The District's accounting policies conform to the cash basis of accounting, as defined by the Illinois State Board of Education.

(a) Principles Used to Determine the Scope of the Reporting Entity

The District's reporting entity includes the District's governing board and all related organizations for which the District exercises oversight responsibility.

The District has developed criteria to determine whether outside agencies with activities which benefit the citizens of the District, including joint agreements which serve pupils from numerous districts, should be included within its financial reporting entity. The criteria include, but are not limited to, whether the District exercises oversight responsibility (which includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations, and accountability for fiscal matters), scope of public service, and special financing relationships.

Joint agreements have been determined not to be part of the reporting entity after applying the manifesting of oversight, scope of public service and special financing relationships criteria, and, are therefore excluded from the accompanying financial statements because the District does not control the assets, operations or management of the joint agreements. In addition, the District is not aware of any entity which would exercise such oversight as to result in the District being considered a component unit of the entity.

(b) Basis of Presentation – Fund Accounting

These financial statements comply with the regulatory basis of reporting as prescribed by the Illinois State Board of Education.

The accounts of the District are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets and liabilities arising from cash transactions, fund balance, revenue received and expenditures paid. The District maintains individual funds required by the State of Illinois. These funds are presented on the regulatory basis as required for reports filed with the Illinois State Board of Education. District resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The following fund types and account groups are used by the District:

Notes to Financial Statements

Governmental Funds

Governmental funds are those through which most governmental functions of the District are financed. The acquisition, use and balances of the District's expendable financial resources and the related liabilities arising from cash transactions are accounted for through governmental funds.

Educational Fund – This fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

Operations and Maintenance Fund – This fund is also a general operating fund used to account for costs of maintaining school buildings.

Debt Service Fund – This fund is a debt retirement fund. Resources of this fund are used to retire principal and interest maturities of outstanding bond obligations and other long-term debt instruments.

Transportation Fund – This fund is a special revenue fund used to account for the costs of transporting pupils to and from school and school activities.

Municipal Retirement/Social Security Fund – This fund is a special revenue fund used to pay the District's share of municipal retirement benefits for covered employees. The District's share of Social Security and Medicare-only is also paid from this fund.

Capital Projects Fund – Proceeds of construction bond issues, the capital improvement tax levy, and if applicable, school facility occupation tax proceeds are accounted for in this fund.

Working Cash Fund – The resources of this fund are held by the District to be used for temporary interfund loans to any fund of the District for which taxes are levied.

Tort Fund – This fund is a special revenue fund used to account for tort immunity or tort judgment purposes.

Fire Prevention and Safety Fund – Proceeds of fire prevention and safety bond issues and tax levy are accounted for in this fund.

Fiduciary Funds

Fiduciary funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governments or other funds.

Agency Funds – Agency funds include Student Activity Funds. Student Activity Funds are those that are owned, operated and managed generally for educational, recreational

Notes to Financial Statements

and cultural purposes by the student body under the guidance and direction of adults or a staff member. Although the Board of Education has the ultimate responsibility for Student Activity Funds, they are not local education funds.

<u>Governmental Funds – Measurement Focus</u>

The financial statements of all governmental funds focus on the measurement of spending or "financial flow" and the determination of changes in financial position rather than upon net income determination. This means that only current assets and current liabilities are generally included on their balance sheets. Their reported fund balance (net current assets) is considered a measure of "available spendable resources." Governmental fund operating statements present increases (cash receipts and other financing sources) and decreases (cash disbursements and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during a period.

General Fixed Assets and General Long-Term Debt Account Groups

The accounting and reporting treatment applied to the fixed assets and long-term liabilities associated with a fund are determined by its measurement focus. Fixed assets used in governmental fund type operations are accounted for in the General Fixed Assets Account Group, rather than in governmental funds. Long-term liabilities expected to be financed from governmental funds are accounted for in the General Long-Term Debt Account Group, not in the governmental funds.

The two account groups are not "funds." They are concerned only with the measurement of financial position. They are not involved with measurement of results of operations.

(c) Basis of Accounting

Basis of accounting refers to when revenue received and expenditures paid are recognized in the accounts and how they are reported on the financial statements. The District maintains its accounting records for all funds and account groups on the cash basis of accounting under guidelines prescribed by the Illinois State Board of Education. Accordingly, revenue is recognized and recorded in the accounts when cash is received. In the same manner, expenditures are recognized and recorded upon the disbursement of cash. Assets of a fund are only recorded when cash is received or when a right to receive cash exists which arises from a previous cash transaction. Liabilities of a fund, similarly, result from previous cash transactions.

Cash basis financial statements omit recognition of receivables and payables and other accrued and deferred items that do not arise from previous cash transactions.

Notes to Financial Statements

Proceeds from sales of bonds are included as other financing sources in the appropriate fund on the date received. Related bond principal payable in the future is recorded at the same time in the General Long-Term Debt Account Group.

(d) Budgets and Budgetary Accounting

The budget for all Governmental Fund Types is prepared on the cash basis of accounting which is the same basis that is used in financial reporting. This allows for comparability between budget and actual amounts. This is an acceptable method in accordance with 105 ILCS 5/17-1. The original budget was passed on September 7, 2017 with an amended budget passed on June 7, 2018. The budget lapses at the end of each fiscal year.

The District follows these procedures in establishing the budgetary data reflected in the financial statements.

- 1. The Superintendent submits to the Board of Education a proposed operating budget for the fiscal year commencing on July 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. A public hearing is held as to such budget prior to final action.
- 3. Prior to October 1, the budget is legally adopted through passage of a resolution.
- 4. Formal budgetary integration is employed as a management control device during the year.
- 5. The Board of Education may make transfers between the various items in any fund not exceeding in the aggregate 10% of the total of such fund as set forth in the budget.
- 6. The Board of Education may amend the budget by the same procedures required of its original adoption.

(e) Cash

The District considers cash on hand, cash on deposit with banks and other institutions, certificates of deposit, money market accounts, and repurchase agreements to be cash for financial statement purposes.

(f) Investments

All investments are reported at fair value. The District has adopted a formal written investment policy. The institutions in which investments are made must be approved by the Board of Education.

Notes to Financial Statements

(g) Commingled Accounts

The District uses common bank accounts to hold the monies of more than one fund. Interest earned on these common accounts is credited to each participating fund based on its approximate share of the account prior to the payment of interest.

(h) General Fixed Assets

General fixed assets with expected useful lives that exceed one year and cost more than \$500, are recorded as expenditures paid in the Governmental or Activity Funds and capitalized at cost in the general fixed assets account group. All fixed assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated general fixed assets are stated at estimated fair market value as of the date of acquisition. Depreciation accounting is not considered applicable (except to determine the per capita tuition charge).

Depreciation is computed using the straight line method over estimated lives ranging from three to fifty years. Estimated lives are determined based on the policies prescribed by the Illinois State Board of Education.

(2) Property Taxes

The District's property tax is levied each year on all taxable real property located in the District on or before the last Tuesday in December. The levy was passed by the board on November 2, 2017. Property taxes attach as an enforceable lien on property as of January 1 and are payable in two installments on approximately June 1 and September 1. The District receives significant distributions of tax receipts during June, July, August, September, October, and November. Taxes recorded in these financial statements are from the 2017, 2016, and prior tax levies.

The following are the tax rate limits permitted by the *Illinois Compiled Statutes* and by local referendum and the actual rates levied per \$100 of assessed valuation:

Notes to Financial Statements

(3) Cash Deposits and Investments

The District is allowed to invest in securities as authorized by the Illinois Public Funds Investment Act - 30 ILCS 235/2 and 6; and the Illinois School Code - 105 ILCS 5/8-7.

Cash and investments as of June 30, 2018 are classified in the accompanying financial statements as follows:

Statement of Assets and Liabilities Arising from Cash Transactions	
Cash	\$ 13,378,392
Investments	1,018,875
Total cash and investments	\$ 14,397,267

Agency	201,531
Investments	
District	1,018,875
Agency	_
Total cash and investments	\$ 14,397,267

Notes to Financial Statements

Deposits - custodial credit risk

Custodial credit risk for deposits is the risk that, in the event of a depository financial institution failure, the District's deposits may not be returned to it. The District's policy requires all amounts deposited or invested with financial institutions in excess of any insurance limit shall be collateralized by: (1) securities eligible for district investment or any other high-quality, interest-bearing security rated at least AA/Aa by one or more standard rating service to include Standard & Poor's, Moody's, or Fitch, (2) mortgages, (3) letters of credit issued by a Federal Home Loan Bank, or (4) loans covered by a State Guaranty under the Illinois Farm Development Act. The market value of the pledged securities shall equal or exceed the portion of the deposit requiring collateralization. The Chief Investment Officer shall determine other collateral requirements.

Safekeeping and custody arrangements

The preferred method of safekeeping is to have pledged securities registered in the District's name and held by a third-party custodian. Safekeeping practices should qualify for the Governmental Accounting Standards Board (GASB) Statement No. 3 Deposits with Financial Institution, Investments (including Repurchase Agreements), and Reverse Repurchase Agreements, Category I, the highest recognized safekeeping procedures.

As of June 30, 2018, \$13,133,574 of the District's bank balance of \$13,384,574, were exposed to custodial credit risk as follows:

Uninsured and collateralized by securities held by the pledging financial institution

\$ 13,133,574

Investments

As of June 30, 2018, the District had the following investments:

<u>Investment</u> Illinois Funds Money Market Fund Fair Value \$ 1,017,621

The Illinois Funds Money Market Fund (formerly known as IPTIP) is a money market fund created in 1975 by the Illinois General Assembly. Its primary purpose is to provide the Public Treasurer and other custodians of public funds with an alternative investment vehicle which enable them to earn a competitive rate of return of fully collateralized investments, while maintaining immediate access to invested funds. The monies invested by the individual participants are pooled together and invested in U.S. Treasury bills and notes backed by full faith and credit of the U.S. Treasury. In addition, monies are invested in fully collateralized time deposits in Illinois financial institutions, in collateralized repurchase agreements, and in treasury mutual funds that invest in U.S. Treasury obligations and collateralized repurchase agreements. Investments in Illinois Funds Money Market Fund are valued at the funds share price which is equivalent to fair market value.

Notes to Financial Statements

Interest rate risk

In accordance with its investment policy, the District limits its exposure to interest rate risk, by structuring its portfolio to provide sufficient liquidity to pay District obligations as they come due.

Credit risk is the risk that an issuer of an investment will not fulfill its obligations to the holder of the investment. The District's investment policy seeks to minimize credit risk by requiring investment in securities allowed under the investment policy. The Illinois Funds is rated AAAm by Standard & Poor's at June 30, 2018.

Custodial credit risk

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, the District will not be able to recover the value of its investment or collateral securities that are in the possession of another party. With respect to investments, custodial credit risk generally applies only to direct investments in marketable securities. Custodial credit risk does not apply to indirect investments in securities through the use of mutual funds or governmental investment pools such as Illinois Funds.

Concentration of credit risk

No investment in any one issuer, other than U.S. Treasury securities, mutual funds, and Illinois Funds, represent 5% or more of the District's total investments.

Notes to Financial Statements

(4) Changes in General Fixed Assets & Depreciation

Under the regulatory basis of accounting, assets and depreciation are not recorded and therefore the financial statements do not reflect the amounts below.

Notes to Financial Statements

(5) Employee Pensions and Other Benefit Plans

The District participates in multiple retirement plans to provide retirement benefits to its employees. For the year ended June 30, 2018, the District recorded a total of \$1,190,341 in payments to the various retirement plans as detailed below.

It should be noted that actuarial accrued liabilities, deferred inflows of resources and deferred out flows of resources are not recorded in the financial statements since the District uses the regulatory basis of accounting as prescribed or permitted by the Illinois State Board of Education as described in Note 1.

(a) Teachers' Retirement System of the State of Illinois

Plan description

The employer participates in the Teachers' Retirement System of the State of Illinois (TRS). TRS is a cost-sharing multiple-employer defined benefit pension plan that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the city of Chicago. TRS members include all active non-annuitants who are employed by a TRS-covered employer to provide services for which teacher licensure is required. The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action with the Governor's approval. The TRS Board of Trustees is responsible for the System's administration.

TRS issues a publicly available financial report that can be obtained at https://www.trsil.org/financial/cafrs/fy2017 by writing to TRS at 2815 W. Washington, PO Box 19253, Springfield, IL 62794; or by calling (888) 678-3675, option 2.

Benefits provided

TRS provides retirement, disability, and death benefits. Tier I members have TRS or reciprocal system service prior to January 1, 2011. Tier I members qualify for retirement benefits at age 62 with five years of service, at age 60 with 10 years, or age 55 with 20 years. The benefit is determined by the average of the four highest years of creditable earnings within the last 10 years of creditable service and the percentage of average salary to which the member is entitled. Most members retire under a formula that provides 2.2 percent of final average salary up to a maximum of 75 percent with 34 years of service. Disability and death benefits are also provided.

Tier II members qualify for retirement benefits at age 67 with 10 years of service, or a discounted annuity can be paid at age 62 with 10 years of service. Creditable earnings for retirement purposes are capped and the final average salary is based on the highest consecutive eight years of creditable service rather than the last four. Disability provisions for Tier II are identical to those of Tier I. Death benefits are payable under a formula that is different from Tier I.

Notes to Financial Statements

Essentially all Tier I retirees receive an annual 3 percent increase in the current retirement benefit beginning January 1 following the attainment of age 61 or on January 1 following the member's first anniversary in retirement, whichever is later. Tier II annual increases will be the lesser of three percent of the original benefit or one-half percent of the rate of inflation beginning January 1 following attainment of age 67 or on January 1 following the member's first anniversary in retirement, whichever is later.

Public Act 100-0023, enacted in 2017, creates an optional Tier 3 hybrid retirement plan, but it has not yet gone into effect. The earliest possible implementation date is July 1, 2019.

Contributions

The state of Illinois maintains the primary responsibility for funding TRS. The Illinois Pension Code, as amended by Public Act 88-0593 and subsequent acts, provides that for years 2010 through 2045, the minimum contribution to the System for each fiscal year shall be an amount determined to be sufficient to bring the total assets of the System up to 90 percent of the total actuarial liabilities of the System by the end of fiscal year 2045.

Contributions from active members and TRS contributing employers are also required by the Illinois Pension Code. The contribution rates are specified in the pension code. The active member contribution rate for the year ended June 30, 2018, was 9.0 percent of creditable earnings. The member contribution, which may be paid on behalf of employees by the employer, is submitted to TRS by the employer. For the year ended June 30, 2018, the District reported expenditures of \$679,892 for this contribution.

On behalf contributions to TRS.

The state of Illinois makes employer pension contributions on behalf of the employer. For the year ended June 30, 2017, state of Illinois contributions recognized by the employer were based on the state's proportionate share of the collective net pension liability associated with the employer, and the employer recognized revenue and expenditures of \$756,941 in pension contributions from the state of Illinois.

• 2.2 formula contributions.

Employers contribute 0.58 percent of total creditable earnings for the 2.2 formula change. The contribution rate is specified by statute. Contributions for the year ended June 30, 2018, were \$43,500, and are deferred because they were paid after the June 30, 2017 measurement date.

Notes to Financial Statements

Federal and special trust fund contributions.

When TRS members are paid from federal and special trust funds administered by the employer, there is a statutory requirement for the employer to pay an employer pension contribution from those funds. Under Public Act 100-0340, the federal and special trust fund contribution rate is the total employer normal cost beginning with the year ended June 30, 2018.

Previously, employer contributions for employees paid from federal and special trust funds were at the same rate as the state contribution rate to TRS and were much higher.

For the year ended June 30, 2018, the employer pension contribution was 10.10 percent of salaries paid from federal and special trust funds. For the year ended June 30, 2018, salaries totaling \$94,710 were paid from federal and special trust funds that required employer contributions of \$9,566. These contributions are deferred because they were paid after the June 30, 2017 measurement date.

• Employer retirement cost contributions.

Under GASB Statement No. 68, contributions that an employer is required to pay because of a TRS member retiring are categorized as specific liability payments. The employer is required to make a one-time contribution to TRS for members retiring under the Early Retirement Option (ERO). The payments vary depending on the member's age and salary. The maximum employer ERO contribution under the program that ended on June 30, 2016 is 146.5 percent and applies when the member is age 55 at retirement. For the year ended June 30, 2018, the employer paid \$0 to TRS for employer ERO contributions for retirements that occurred before July 1, 2016.

The employer is also required to make a one-time contribution to TRS for members granted salary increases over 6 percent if those salaries are used to calculate a retiree's final average salary. A one-time contribution is also required for members granted sick leave days in excess of the normal annual allotment if those days are used as TRS service credit. For the year ended June 30, 2018, the employer paid \$0 to TRS for employer contributions due on salary increases in excess of 6 percent and \$0 for sick leave days granted in excess of the normal annual allotment.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2018, the employer had a liability for its proportionate share of the net pension liability (first amount shown below) that reflected a reduction for state pension support provided to the employer. The state's support and total are for disclosure purposes only. The amount of the employer's net pension liability, the related state

Notes to Financial Statements

support, and the total portion of the net pension liability that was associated with the employer were as follows:

Employer's proportionate share of the net pension liability	\$ 1,512,485
State's proportionate share of the net pension liablity	
associated with the employer	52,302,135
Total	\$ 53,814,620

The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2016, and rolled forward to June 30, 2017. The employer's proportion of the net pension liability was based on the employer's share of contributions to TRS for the measurement year ended June 30, 2017, relative to the contributions of all participating TRS employers and the state during that period. At June 30, 2017, the employer's proportion was .0019797405 percent, which was an increase of .0006820696 from its proportion measured as of June 30, 2016.

At June 30, 2018, the employer had deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Deferred	Deferred
Outflows of	Inflows of
Resources	Resources
16,427	\$ 698
1,038	-
100,948	43,462
719,702	911,774
-	-
838,115	\$ 955,934
	Outflows of Resources 5 16,427 1,038 100,948 719,702

Notes to Financial Statements

Deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30,

2019	\$ (109,501)
2020	49,127
2021	(103,012)
2022	33,883
2023	11,684

Actuarial assumptions

The total pension liability in the June 30, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.50 percent

Salary increases varies by amount of service credit

Investment rate of return 7.00 percent, net of pension plan investment

expense, including inflation

Mortality rates were based on the RP-2014 White Collar Table with adjustments as appropriate for TRS experience. The rates are used on a fully-generational basis using projection table MP-2014. The same assumptions were used in the June 30, 2016 actuarial valuation.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class that were used by the actuary are summarized in the following table:

Notes to Financial Statements

	Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return
U.S. equities large cap	14.4%	6.94%
U.S. equities small/mid cap	3.6%	8.09%
International equities developed	14.4%	7.46%
Emerging market equities	3.6%	10.15%
U.S. bonds core	10.7%	2.44%
International debt developed	5.3%	1.70%
Real estate	15.0%	5.44%
Commodities (real return)	11.0%	4.28%
Hedge funds (absolute return)	8.0%	4.16%
Private equity	14.0%	10.63%
Total	100%	

Discount rate

At June 30, 2017, the discount rate used to measure the total pension liability was 7.0 percent, which was a change from the June 30, 2016 rate of 6.83 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions, employer contributions, and state contributions will be made at the current statutorily-required rates.

Based on those assumptions, TRS's fiduciary net position at June 30, 2017 was not projected to be available to make all projected future benefit payments of current active and inactive members and all benefit recipients. Tier I's liability is partially funded by Tier II members, as the Tier II member contribution is higher than the cost of Tier II benefits. Due to this subsidy, contributions from future members in excess of the service cost are also included in the determination of the discount rate. All projected future payments were covered, so the long-term expected rate of return on TRS investments was applied to all periods of projected benefit payments to determine the total pension liability.

At June 30, 2016, the discount rate used to measure the total pension liability was 6.83 percent. The discount rate was lower than the actuarially-assumed rate of return on investments that year because TRS's fiduciary net position and the subsidy provided by Tier II were not sufficient to cover all projected benefit payments.

Sensitivity of the employer's proportionate share of the net pension liability to changes in the discount rate

The following presents the employer's proportionate share of the net pension liability calculated using the discount rate of 7.0 percent, as well as what the employer's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.0 percent) or 1-percentage-point higher (8.0 percent) than the current rate.

Notes to Financial Statements

	Current			
	1% Decrease	Discount Rate	1% Increase	
	(6.00%)	(7.00%)	(8.00%)	
Employer's proportionate share				
of the net pension liability	\$ 1,858,285	\$ 1,512,485	\$ 1,229,246	

TRS fiduciary net position

Detailed information about the TRS's fiduciary net position as of June 30, 2017 is available in the separately issued TRS *Comprehensive Annual Financial Report*.

(b) Illinois Municipal Retirement Fund Pension Plan

Plan Description. The District's defined benefit pension plan for Regular employees provides retirement and disability benefits, post retirement increases, and death benefits to plan members and beneficiaries. The District's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. That report may be obtained online at www.imrf.org.

Benefits Provided. IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

All three IMRF benefit plans have two tiers. Employees hired before January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years

Notes to Financial Statements

of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lesser of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Employees Covered by Benefit Terms. As of December 31, 2016, the following employees were covered by the benefit terms:

Retirees and beneficiaries currently receiving benefits	99
Inactive plan members entitled to but not yet receiving benefits	121
Active members	82
Total	302

Contributions. As set by statute, the District's Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The District's annual contribution rate for calendar year 2017 was 10.14%. For the fiscal year ended June 30, 2018, the District contributed \$186,106 to the plan. The District also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability. The District's net pension liability was measured as of December 31, 2017. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions. The following are the methods and assumptions used to determine total pension liability at December 31, 2017:

- The actuarial cost method used was Entry Age Normal.
- The asset valuation method used was Market Value of Assets.
- The inflation rate was assumed to be 2.50%.
- Salary increases were expected to be 3.39% to 14.25%, including inflation.
- The investment rate of return was assumed to be 7.50%.
- Projected retirement age was from the Experience-based table of rates, specific to the type of eligibility condition, last updated for the 2017 valuation according to an experience study from years 2014 to 2016.

Notes to Financial Statements

- The IMRF-specific rates for Mortality (for non-disabled retirees) were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience.
- For disabled retirees, an IMRF-specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF-specific rates were developed from the RP-2014 Disabled Retirees Mortality Table, applying the same adjustments that were applied for non-disabled lives.
- For active members, an IMRF-specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF-specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.
- The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

	Portfolio Target	Long-Term Expected
Asset Class	Percentage	Real Rate of Return
Domestic Equity	37%	6.85%
International Equity	18%	6.75%
Fixed Income	28%	3.00%
Real Estate	9%	5.75%
Alternative Investments	7%	2.65-7.35%
Cash Equivalents	1%	2.25%
	100%	

Single Discount Rate. A Single Discount Rate of 7.50% was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

- 1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
- 2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

Notes to Financial Statements

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.50%, the municipal bond rate is 3.31%, and the resulting single discount rate is 7.50%.

Changes in Net Pension Liability

	Total Pension Liability (A)	Plan Fiduciary Net Position (B)	Net Pension (Asset) Liability (A) - (B)
Balances at December 31, 2016	\$10,401,788	\$ 9,574,285	\$ 827,503
Changes for the year:			
Service cost	194,711	-	194,711
Interest on the total pension liability	766,453	-	766,453
Changes of benefit terms	-	-	-
Difference between expected and actual			
experience of the total pension liability	(81,883)	-	(81,883)
Changes of assumptions	(309,727)	-	(309,727)
Contributions - employer	-	167,584	(167,584)
Contributions - employee	-	74,652	(74,652)
Net investment income	-	1,727,093	(1,727,093)
Benefit payments, including refunds of			
employee contributions	(559,536)	(559,536)	-
Other (net transfer)		(212,512)	212,512
Net changes	10,018	1,197,281	(1,187,263)
Balances at December 31, 2017	\$ 10,411,806	\$ 10,771,566	\$ (359,760)

Sensitivity of the Net Pension Liability to Changes in the Discount Rate. The following presents the plan's net pension liability, calculated using a Single Discount Rate of 7.50%, as well as what the plan's net pension liability would be if it were calculated using a Single Discount Rate that is 1% lower or 1% higher:

	Single Discount Rate Assumption					
	1% Decrease		1% Decrease Current			1% Increase
		6.50%		7.50%		8.50%
Total pension liability	\$	11,575,197	Ç	10,411,806		\$ 9,466,240
Plan fiduciary net position		10,771,566		10,771,566		10,771,566
Net pension (asset) liability	\$	803,631	5	(359,760)		\$(1,305,326)

Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions. Pension expense as reflected in the financial statements for the fiscal year ended June 30, 2018 was \$186,106. At December 31, 2017, the District had deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Notes to Financial Statements

	Deferred Outflows of Resources		Ir	Deferred of esources
Deferred amounts to be recognized in pension expense in future periods:				
Difference between expected and actual experience	\$	51,083	\$	48,634
Changes of assumptions		-		186,350
Net difference between projected and actual				
earnings on pension plan investments		314,458		823,112
Total deferred amounts to be recognized in pension				
expense in future periods		365,541		1,058,096
Pension contributions made subsequent to the				
measurement date		_		-
Total deferred amounts related to pensions	\$	365,541	\$	1,058,096

Deferred outflows of resources and (deferred inflows) of resources related to pensions will be recognized in pension expense in future periods as follows:

	Net Deferred		
Year Ending	Outflows (Inflows)		
December 31	of	Resources	
		_	
2018	\$	(151,951)	
2019		(140,009)	
2020		(194,817)	
2021		(205,778)	
2022			
	\$	(692,555)	

(c) Aggregate Information

Since the District participates in more than one retirement plan, GASB 68 requires disclosure of the following, which aggregates selected information from the Teachers' Retirement System and the Illinois Municipal Retirement Fund.

	TRS	IMRF	Total
Net Pension Liabilities	\$ 1,512,485	\$ -	\$ 1,512,485
Net Pension Assets	-	359,760	359,760
Deferred Outflows of Resources	838,115	365,541	1,203,656
Deferred Inflows of Resources	955,934	1,058,096	2,014,030
Pension expenditures for the			
year ended June 30, 2018	732,958	186,106	919,064

Notes to Financial Statements

(d) Social Security

Employees not qualifying for coverage under the Teachers' Retirement System of the State of Illinois or the Illinois Municipal Retirement Fund are considered "non-participating employees". These employees and those qualifying for coverage under the Illinois Municipal Retirement Fund are covered under Social Security. The District paid \$141,388, the total required contribution for the current fiscal year.

(e) Medicare

All employees, except certificated personnel hired prior to April 1, 1986, are covered under the Basic Hospital Insurance Plan provision of the medicare health insurance program. The District paid \$129,889, the total required contribution for the current fiscal year.

(6) Fund Balance Reporting

According to Government Accounting Standards, fund balances are to be classified into five major classifications: Nonspendable Fund Balance, Restricted Fund Balance, Committed Fund Balance, Assigned Fund Balance, and Unassigned Fund Balance. The Regulatory Model, followed by the District, only reports Reserved and Unreserved Fund Balances. Below are definitions of the differences and a reconciliation of how these balances are reported.

(a) Nonspendable Fund Balance

The nonspendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, for example inventories and prepaid amounts. Due to the cash basis nature of the District, all such items are expensed at the time of purchase, so there is nothing to report for this classification.

(b) Restricted Fund Balance

The restricted fund balance classification refers to amounts that are subject to outside restrictions, not controlled by the entity. Things such as restrictions imposed by creditors, grantors, contributors, or laws and regulations of other governments, or imposed by law through constitutional provisions or enabling legislation. Special Revenue Funds are by definition restricted for those specified purposes. The District has several revenue sources received within different funds that also fall into these categories —

Notes to Financial Statements

1. Special Education

Cash receipts and the related cash disbursements of this restricted tax levy are accounted for in the Educational Fund. At June 30, 2018 expenditures disbursed exceeded revenues received for this purpose, resulting in no restricted fund balance.

2. Leasing Levy

Cash receipts and the related cash disbursements of this restricted tax levy are accounted for in the Educational Fund. At June 30, 2018, expenditures disbursed exceeded revenues received for this purpose, resulting in no restricted fund balance.

3. State Grants

Proceeds from state grants and the related expenditures have been included in the Educational, Transportation, and Municipal Retirement/Social Security Funds. At June 30, 2018, expenditures disbursed exceeded revenues received for this purpose, resulting in no restricted fund balance.

4. Federal Grants

Proceeds from federal grants and the related expenditures have been included in the Educational, Transportation, and Municipal Retirement/Social Security Funds. At June 30, 2018, expenditures disbursed from federal grants exceeded revenues received for these purposes in the Educational Fund, resulting in no restricted fund balance.

5. IMRF/Social Security

Cash disbursed and the related cash receipts of these restricted tax levies are accounted for in the Municipal Retirement/Social Security Fund. Revenue received exceeded expenditures disbursed for these purposes, resulting in a restricted fund balance of \$383,625. For purposes of Regulatory reporting, the Social Security portion of the fund balance, \$98,557, will be classified as Reserved, and the Municipal Retirement portion of the fund balance, \$285,068, will be classified as Unreserved.

(c) Committed Fund Balance

The committed fund balance classification refers to amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision making authority (the School Board). Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of formal action it employed to previously commit those amounts.

Notes to Financial Statements

The School Board commits fund balance by making motions or passing resolutions to adopt policy or to approve contracts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Employee contracts for services rendered during the school year for employees electing twelve month pay schedules are recorded as disbursements in the fiscal year when such checks are drawn. At June 30, 2018, the total amount of unpaid contracts for services performed during the fiscal year ended June 30, 2018 amounted to \$655,906. This amount is shown as Unreserved in the Educational Fund.

(d) Assigned Fund Balance

The assigned fund balance classification refers to amounts that are constrained by the government's intent to be used for a specific purpose, but are neither restricted nor committed. Intent may be expressed by (a) the School Board itself or (b) the finance committee or by the Superintendent when the School Board has delegated the authority to assign amounts to be used for specific purposes.

The District budgets property tax revenue based on the tax levy approved by the Board the previous December. For the fiscal year ending June 30, 2019, the District budgets property tax revenue based on the 2017 tax levy of which \$5,139,036 was received by the District prior to June 30, 2018 and is therefore included as revenue under the cash method of accounting in this fiscal year. Under the assigned fund balance definition, \$3,395,370 received in the Educational, Operations and Maintenance and Working Cash funds is assigned fund balance in these funds as shown below and is shown as Unreserved in the financial statements.

(e) Unassigned Fund Balance

The unassigned fund balance classification is the residual classification for amounts in the General Operating Funds for amounts that have not been restricted, committed, or assigned to specific purposes within the General Funds. Unassigned Fund Balance amounts are shown in the financial statements as Unreserved Fund Balances in the Educational, Operations and Maintenance, and Working Cash Funds.

(f) Regulatory – Fund Balance Definitions

Reserved Fund Balances are those balances that are reserved for a specific purpose, other than the regular purpose of any given fund. Unreserved Fund Balances are all balances that are not reserved for a specific purpose other than the specified purpose of a fund.

Notes to Financial Statements

(g) Reconciliation of Fund Balance Reporting

The first five columns of the following table represent Fund Balance Reporting according to generally accepted accounting principles. The last two columns represent Fund Balance Reporting under the regulatory basis of accounting utilized in preparation of the financial statements.

Generally Accepted Accounting Principles					Regulato	ory Basis	
						Financial	Financial
	Non-					Statements-	Statements-
<u>Fund</u>	<u>spendable</u>	<u>Restricted</u>	Committed	<u>Assigned</u>	<u>Unassigned</u>	Reserved	<u>Unreserved</u>
Educational	-	-	655,906	2,987,301	5,886,265	-	9,529,472
Operations &							
Maintenance	-	-	-	342,365	-	-	342,365

Transportation	-	1,742,914	-	-	-	-	1,742,914
Municipal							
Retirement	-	383,625	-	-	-	98,557	285,068
Capital Projects	-	112,535	-	-	-	-	112,535
Working Cash	-	-	-	42,921	468,125	-	511,046
Tort Liability	-	387,584	-	-	-	-	387,584
Fire Prevention							
and Safety	-	151,521	-	-	-	-	151,521

(h) Expenditures of Fund Balance

Unless specifically identified, expenditures act to reduce restricted balances first, then committed balances, next assigned balances, and finally act to reduce unassigned balances. Expenditures for a specifically identified purpose will act to reduce the specific classification of fund balance that is identified.

(7) Long-Term Debt

As of June 30, 2018, the District had long-term debt outstanding in the amount of \$14,615,683. The long-term debt is reported in the General Long-Term Debt Group and consists of the following.

Bonded Indebtedness

Bonded indebtedness current requirements for principal and interest expenditures are payable from future revenues of the Debt Service Fund. The revenues consist principally of property taxes collected by the District and interest earnings.

Notes to Financial Statements

Bonded indebtedness consists of the following:

Capital Appreciation School Bonds, Series 2000

These bonds were issued in increments of \$5,000 with various maturity dates and interest is payable only at maturity. Formerly, accretion of interest was calculated annually and shown as an increase in the principal balance at the time of accretion. Due to the issuance of Series 2016 bonds and subsequent pay down of the Series 2000 and 2002 bonds, accretion will be recorded as interest expense when paid after June 30, 2016.

(9) Interfund Loans

There were no interfund loans made or repaid during the fiscal year ended June 30, 2018.

(10) Interfund Transfers

The District made no interfund transfers during the fiscal year ended June 30, 2018.

Notes to Financial Statements

(11) Overexpenditure of Budget

The District overexpended its budget in the following funds during the fiscal year ended June 30, 2018.

<u>Fund</u>	<u>Expenditures</u>	<u>Budget</u>
Debt Service Fund	\$ 1,791,567	\$ 1,791,119
Transportation Fund	\$ 1,542,358	\$ 1,088,915

All other funds were operated within the legal confines of their budgets during the fiscal year ended June 30, 2018.

(12) Joint Agreements

The District is a member of Ogle County Educational Cooperative Joint Agreement located at 417 N. Colfax, Box 52, Byron, IL 61010, along with other area school districts to provide special education services. The District pays tuition to the Cooperative based upon the Cooperative's budgeted expenditures and the District's special education enrollment. The District made payments to the Ogle County Educational Cooperative during fiscal year 2018 in the amount of \$516,922.

The District also has entered into an operating agreement with the Julia Hull District Library which is located on the Stillman Valley High School Campus. The Library reimburses the District for the cost of certain librarian and aides salaries and benefits and other operating costs. During the year ended June 30, 2018, the District received \$58,370 from the Library.

The District is also a member of Career Education Associates of North Central Illinois (CEANCI) located at 4151 Samuelson Road, Rockford, Illinois, 61109. CEANCI provides technical education services and receives state grants and reallocates to member districts. During the year ended June 30, 2018, the District paid CEANCI \$18,292 for technical education services and received \$14,071 from CEANCI for salary reimbursements and CTEI flow-through funding allocations.

The District's pupils benefit from programs administered under these joint agreements, and the District benefits from jointly administered grants and programming. The District does not have any equity interest in these joint agreements. The joint agreements are separately audited and are not included in these financial statements. Financial information about the joint agreements can be obtained by contacting them at the addresses given above.

Notes to Financial Statements

(13) Other Postemployment Benefits (OPEB)

(a) Teacher Health Insurance Security (THIS) Fund

The employer participates in the Teacher Health Insurance Security (THIS) Fund, a cost-sharing, multiple-employer defined benefit post-employment healthcare plan that was established by the Illinois legislature for the benefit of retired Illinois public school teachers employed outside the city of Chicago. The THIS Fund provides medical, prescription, and behavioral health benefits, but it does not provide vision, dental, or life insurance benefits to annuitants of the Teachers' Retirement System (TRS). Annuitants not enrolled in Medicare may participate in the state-administered participating provider option plan or choose from several managed care options. Annuitants who are enrolled in Medicare Parts A and B may be eligible to enroll in a Medicare Advantage plan.

The State Employees Group Insurance Act of 1971 (5 ILCS 375) outlines the benefit provisions of the THIS Fund and amendments to the plan can be made only by legislative action with the Governor's approval. The plan is administered by the Illinois Department of Central Management Services (CMS) with the cooperation of TRS. Section 6.6 of the State Employees Group Insurance Act of 1971 requires all active contributors to TRS who are not employees of the state to make a contribution to the THIS Fund.

The percentage of employer required contributions in the future will not exceed 105 percent of the percentage of salary actually required to be paid in the previous fiscal year.

• On behalf contributions to the THIS Fund

The state of Illinois makes employer retiree health insurance contributions on behalf of the employer. State contributions are intended to match contributions to the THIS Fund from active members which were 1.18 percent of pay during the year ended June 30, 2018. State of Illinois contributions were \$89,552 and the employer recognized revenue and expenditures of this amount during the year.

• Employer contributions to the THIS Fund

The employer also makes contributions to the THIS Fund. The employer THIS Fund contribution was 0.88 percent during the year ended June 30, 2018. For the year ended June 30, 2018, the employer paid \$66,785 to the THIS Fund, which was 100 percent of the required contribution.

Notes to Financial Statements

Further information on the THIS Fund

The publicly available financial report of the THIS Fund may be found on the website of the Illinois Auditor General: http://www.auditor.illinois.gov/Audit-Reports/ABC-List.asp. The current reports are listed under "Central Management Services." Prior reports are available under "Healthcare and Family Services."

(b) Non-certified employees

The District has evaluated its potential liability for other postemployment benefits. The District provides continued health insurance coverage at the active employer rate to all IMRF eligible employees in accordance with Illinois statues, which creates an implicit subsidy of retiree health insurance. Former employees who choose to retain their rights to health insurance through the District are required to pay 100% of the current premium. For the year ended June 30, 2018, five former employees have chosen to stay in the District's health insurance plan. Because this would result in an immaterial implicit subsidy, the District has chosen not to calculate this implicit subsidy in accordance with GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions.

Additionally, the District has no former employees for whom the District is providing an explicit subsidy and no current employees with agreements for future explicit subsidies upon retirement. Therefore, the District has not recorded any postemployment benefit liability as of June 30, 2018.

(14) Risk Management

The District is exposed to various risks of loss related to torts; damage to, and theft or destruction of assets; errors and omissions; injuries to employees; and natural disasters. Significant losses are covered by commercial insurance for all major programs except for workers' compensation for which the District participates in the Illinois Association of School Board Workers' Compensation Self Insurance Trust. Estimated payments are made annually to the Trust to cover claims, however, additional assessments could be required if the Trust reflects a deficit. For all insured programs, there have been no significant reductions in insurance coverage. Settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

(15) Operating Leases

Bus Leases

The District entered into a lease agreement for seven 77-passenger school buses in August 2014 for a term of four years. The principal amount of the lease is \$552,706 and requires three annual payments of \$84,389 beginning August 15, 2014 and a final payment of \$341,362. The District made no lease payments during the current fiscal year exercising a buy-back option and returned the buses to the lessor.

Notes to Financial Statements

The District entered into a lease agreement for twelve 77-passenger school buses in April 2015 for a term of four years. The principal amount of the lease is \$948,612 and requires three annual payments of \$142,231 beginning July 30, 2015 and a final payment of \$599,833. The District made payments of \$142,231 during the fiscal year. The District does not intend to make the final lease payment and will return the buses to the lessor.

The future lease payments are as follows:

Year ending June 30,	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2019	\$ 578,956	\$ 20,877	\$ 599,833

The District entered into a lease agreement for one Micro Bird bus with a lift in July 2016 for a term of four years. The principal amount of the lease is \$63,424 and requires three annual payments of \$12,137 beginning July 7, 2016 and on August 25th of each of the two subsequent years with a final payment of \$31,677 on August 25, 2019. The District made payments of \$24,274 during the fiscal year, including an advance payment of \$12,137 intended to be paid in the fiscal year ending June 30, 2019. The District does not intend to make the final lease payment and will return the buses to the lessor.

The future lease payments are as follows:

Year ending June 30,	<u>Principal</u>		<u>In</u>	<u>terest</u>		<u>Total</u>
2019	\$	-	\$	-	\$	-
2020		30,519		1,158		31,677
	\$	30,519	\$	1,158	\$	31,677

The District entered into a lease agreement for one 25-passenger bus in October 2016 for a term of four years. The principal amount of the lease is \$54,420 and requires three annual payments of \$10,336, with the first being made at closing, and on November 28th of each of the next two years. The final payment of \$27,500 is due on November 28, 2019. The District made payments of \$10,336 during the fiscal year. The District does not intend to make the final lease payment and will return the buses to the lessor.

The future lease payments are as follows:

Year ending June 30,	<u>Principal</u>		<u>In</u>	<u>terest</u>		<u>Total</u>
2019	\$	8,969	\$	1,367	\$	10,336
2020		26,479		1,021		27,500
	\$	35,448	\$	2,388	\$	37,836

Notes to Financial Statements

The District entered into a lease agreement for five 77-passenger buses, including one with a lift, in January 2017 for a term of four years. The principal amount of the lease is \$410,169 and requires three annual payments of \$67,097 beginning March 1, 2017 and each of the two subsequent years with a final payment of \$243,988 on March 1, 2020. The District made payments of \$67,097 during the fiscal year. The District does not intend to make the final lease payment and will return the buses to the lessor.

The future lease payments are as follows:

Year ending June 30,	<u>F</u>	<u>Principal</u>		1	<u>nterest</u>		<u>Total</u>
2019	\$	55,577		\$	11,520	\$	67,097
2020		234,674	_		9,314		243,988
	\$	290,251	_	\$	20,834	\$	311,085

The District entered into a lease agreement for seven 77-passenger buses in January 2017 for a term of four years. The principal amount of the lease is \$564,697 and requires three annual payments of \$90,853 beginning July 15, 2017 and on the same date each of the two subsequent years with a final payment of \$340,848 on July 15, 2020. The District made payments of \$131,706 during the fiscal year, including an advance payment of \$90,853 intended to be paid in the fiscal year ending June 30, 2019. The District does not intend to make the final lease payment and will return the buses to the lessor.

The future lease payments are as follows:

Year ending June 30,	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2019	\$ -	\$ -	\$ -
2020	74,869	15,984	90,853
2021	327,836	13,012	 340,848
	\$ 402,705	\$ 28,996	\$ 431,701

The District entered into a lease agreement for twelve 77-passenger buses in February 2018 for a term of four years. The principal amount of the lease is \$971,256 and requires three annual payments of \$155,748 beginning July 15, 2018 and on the same date each of the two subsequent years with a final payment of \$591,361 on July 15, 2021. The District made advance payments of \$311,496 during the fiscal year intended to be paid in the fiscal years ending June 30, 2019 and 2020. The District does not intend to make the final lease payment and will return the buses to the lessor.

Notes to Financial Statements

The future lease payments are as follows:

Year ending June 30,	<u>P</u>	<u>rincipal</u>		<u>lr</u>	<u>nterest</u>		<u>Total</u>
2019	\$	-		\$	-	\$	-
2020		-			-		-
2021		127,082			28,666		155,748
2022		567,936	_		23,425		591,361
	\$	695,018	_	\$	52,091	\$	747,109

The District entered into a lease agreement for two 14-passenger buses in February 2018 for a term of four years. The principal amount of the lease is \$115,070 and requires three annual payments of \$21,622 beginning July 15, 2018 and on the same date each of the two subsequent years with a final payment of \$59,747 on July 15, 2021. The District made an advance payment of \$21,622 intended to be paid in the fiscal year ending June 30, 2019. The District does not intend to make the final lease payment and will return the buses to the lessor.

The future lease payments are as follows:

Year ending June 30,	<u>P</u>	<u>rincipal</u>		<u>In</u>	<u>terest</u>		<u>Total</u>
2019	\$	-		\$	-		\$ -
2020		17,760			3,862		21,622
2021		18,492			3,130		21,622
2022		57,381			2,367		59,748
	\$	93,633	•	\$	9,359	•	\$ 102,992

These lease agreements are accounted for in the Transportation Fund.

(16) Contingencies

The District has received funding from state and federal grants in the current and prior years, which are subject to audits by the granting agencies. The School Board believes any adjustments that may arise from these audits will be insignificant to District operations.

(17) Unemployment Compensation

The District is self-insured for unemployment compensation. The District is therefore liable to the state for any payments made to any of its former employees claiming benefits. For the year ended June 30, 2018, the District paid \$4,268 to the Illinois Department of Employment Security for unemployment compensation.

Notes to Financial Statements

(18) Subsequent Events

Subsequent events are events or transactions that occur after the balance sheet date but before financial statements are issued or are available to be issued. These events and transactions either provide additional evidence about conditions that existed at the date of the balance sheet, including the estimates inherent in the process of preparing financial statements (that is, recognized subsequent events), or provide evidence about conditions that did not exist at the date of the balance sheet but arose after that date (that is, non-recognized subsequent events).

The District has evaluated subsequent events through October 15, 2018, which was the date that these financial statements were available for issuance, and determined that there were no significant non-recognized subsequent events through that date.

Notes to Other Information

June 30, 2018

These schedules are presented to illustrate the requirement to show information for 10 years. However, until a full 10-year trend is compiled, information is presented for those years for which information is available.

(1) Teachers Retirement System of the State of Illinois – Changes of Assumption

For the 2017 and 2016 measurement years, the assumed investment rate of return was of 7.0 percent, including an inflation rate of 2.5 percent and a real return of 4.5 percent. Salary increases were assumed to vary by service credit.

For the 2015 measurement year, the assumed investment rate of return was 7.5 percent, including an inflation rate of 3.0 percent and real return of 4.5 percent. Salary increases were assumed to vary by service credit. Various other changes in assumptions were adopted based on the experience analysis for the three-year period ending June 30, 2014.

For the 2014 measurement year, the assumed investment rate of return was also 7.5 percent, including an inflation rate of 3.0 percent and real return of 4.5 percent. However, salary increases were assumed to vary by age.

(2) Illinois Municipal Retirement Fund Pension Plan – Summary of Actuarial Methods and Assumptions Used in the Calculation of the 2017 Contribution Rate*

(a) Valuation Date

Actuarially determined contribution rates are calculated as of December 31 each year, which is 12 months prior to the beginning of the fiscal year in which contributions are reported.

(b) Methods and Assumptions Used to Determine 2017 Contribution Rates

Actuarial cost method Aggregate entry age normal

Amortization method Level percentage of payroll, closed

Remaining amortization

Period Taxing bodies (Regular, SLEP, and ECO groups): 26-year

closed period until remaining period reaches 15 years (then 15-year rolling period). Early retirement incentive plan liabilities: a period up to 10 years selected by the District

upon adoption of early retirement incentive.

Asset valuation method 5-year smoothed market; 20% corridor

Notes to Other Information

Wage growth 3.50%

Price inflation 2.75% - approximate; No explicit price inflation assumption

is used in this valuation.

Salary increases 3.75% to 14.50%, including inflation

Investment rate of return 7.50%

Retirementage Experience-based table of rates that are specific to the type

of eligibility condition; last updated for the 2014 valuation pursuant to an experience study of the period 2011-2013.

Mortality RP-2014 Blue Collar Health Annuitant Mortality Table,

adjusted to match current IMRF experience. For disabled lives, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table, applying the same adjustments that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match

current IMRF experience.

(c) Other Information

There were no benefit changes during the year.

^{*} Based on valuation assumptions used in the December 31, 2015, actuarial valuation; note two year lag between valuation and rate setting.
